## Chuckwagon Races Will Feature McGregor Sports

The third annual sports day and race meet at Lake McGregor Memorial Park, near Milo, will be held Saturday, June 15, with chuckwagon races again being the feature attraction. Competing outfits will be trying for the top prize money of \$250. There will also be \$100 prize money in the consolation race.

The famous Calgary Highlanders Pipe Band will be in attendance this year, by permission of the Commanding Officer.

Always a big attraction on this day are the horse races, and a fine and varied program of races is planned for June 15. There will also be foot races for boys and girls.

A new open-air dance floor has been constructed at the park and there will be dancing both afternoon and evening, with music by Alex Fraser's popular orchestra. There will be a midway on the grounds and comedy acts by "Crazy Elmer" and other local talent and added entertainment will include a display of fireworks on the water in the evening. Baseball games will also be featured.

Refreshment booths on the grounds will be operated by district organizations.

## Shower Honors Bride-elect

A number of ladies met in the parlors of the E.U.B. Church Monday evening, in honor of Miss Ruth Williams. The room was decorated with mauve and white lilacs and streamers.

Mrs. C. Budd conducted several amusing games and contests. The most exciting seemed to be the one when each lady told where and when she met her husband; her first impression of him and how soon after they were married.

Mrs. D. Schierman, on behalf of the ladies present, presented Ruth with a hostess chair for her new home. Ruth thanked the ladies for their thoughtfulness and good wishes.

Before refreshments were served the ladies joined in group singing, their theme being, "Love."

The Canadian Cancer Society and the National Cancer Institute of Canada are the two voluntary organizations fighting cancer. The Society is made up of laymen. It supports research, carries on an education program and a welfare program to assist cancer patients. It also raises money. The Institute is made up of doctors and scientists. It supports worthwhile cancer research by giving grants in-aid, fellowships and scholarships. About two-thirds of its money comes from the Society. On the average almost 55 Canadians die of cancer each day. More than 2 each hour.

The principal body supporting cancer research in Canada is the National Cancer Institute of Canada. One-third of its funds come from federal-provincial grants, while the other two-thirds are provided by the Canadian Cancer Society.

Viruses are known to cause certain types of cancer in chickens and mice. Although no positive proof has yet been discovered, many scientists believe viruses or virus-like particles may be involved in human cancer.

## Henry Viney Will Attend Official Golf Opening

Progress is reported in the work of getting the new golf club house ready for the official opening on June 23.

A great deal of effort has been put forth by some of the members and a lot of work accomplished, but there is still considerable work to do.

The roof of the Pan-abode log building is now finished, the outside varnished and the inside walls sanded and one coat of varnish applied. The fireplace has been built and the patio at the front finished, although landscaping will have to wait until next spring. Work to be done includes two more coats of varnish inside, the floor to be laid, plumbing and heating to be installed, etc.

Tentative plans for opening day call for the invitation tournament to start at 10 a.m. and a plate lunch to be served at 1 p.m. The opening ceremony will take place at 2 p.m. and an exhibition golf match will be held following the official opening.

Henry Viney, well-known sports commentator of Calgary, has accepted an invitation to attend and will bring an assistant with him from radio station CFCN. Other sports personalities have also been invited to attend.

## Red Cross Promotes Water Safety

The Vulcan Branch of the Canadian Red Cross Society reports that its recent campaign for funds in Vulcan and district resulted in a total of \$1,796.30 being collected. Major activity of the Red Cross Society in Vulcan in recent years has been the promoting of water-safety in regards to both swimming and boating and the training of swimming instructors and life guards.

In 1956 water claimed the lives of 55 persons in Alberta, 18 of whom were under 14 years of age. The Canadian Red Cross Water Safety Service is aimed at reducing the number of these fatalities. It is the belief of Red Cross that if young people learn to swim, learn to handle watercraft and are taught the proper methods of saving victims this needless loss of life can be greatly lessened.

Operating in conjunction with the Alberta Safety Council, the Red Cross gives instruction in swimming, for both adults and children; conducts schools to train instructors in water safety and presents demonstrations on artificial respiration, water safety, light craft and the ice safety and life saving techniques. High standard set for the program is evidenced in the fact that persons taking the Red Cross Water Safety and Swimming tests are required to answer 20 questions with three incorrect answers being a failing mark. Life saving awards are presented in accordance with regulations of the Royal Life Saving Society.

Water Safety Week will be featured June 16 to 22 — but through the Water Safety Services Red Cross is endeavoring to make every week "Water Safety Week."

## Opening Games of Season

## Elks Gain Two Wins Over Picture Butte

Vulcan Elks got off to a fast start in the 1957 Foothills-Wheat-hell League Sunday as they swept a doubleheader from Harry Watson's Picture Butte Indians, coping the first decision 11-4 and finishing off with a 13-3 win.

Chuck Dailey, Elks' Californian import right-hander, worked seven and two-thirds innings in the first game to pick up the victory. Dailey gave way in the eighth to playing-manager Marty Norman who finished up the game.

Watson's highly-rated right-handed ace, Jim Attrill from London, Ont., started the season opener, giving up 10 runs in the five innings plus he worked. Rookie Barry Reiter went to the mound in relief for Indians in the sixth.

Ronnie Laughlin, young third baseman for Elks from Drumheller paced the attack for the winners with three singles, while Dailey counted a single and blasted a three-run homer in the sixth inning. Import centre fielder Hitch Horton banged out a double and a one-bagger, while second baseman Art Alvarez, left fielder Dale Sorenson, Norman and Fred Burley, behind the plate, all picked up singles.

Starry catcher Hans Pung banged out three of Indians' eight singles.

Norman sent Doug Marquet to the mound for the second contest and the Drumheller pitcher allowed only seven scattered hits and struck out 13 Indians. Bill Johnson started for the Butte, giving way to Reiter in the third, while Ken Ichino worked the last three frames.

Laughlin again led the Vulcan bombers with a triple and three singles, while Don Jantzie had a double and a single and Marquet a pair of singles. Pung collected his fourth and fifth singles of the day with George Menzies also adding a pair of one-baggers to the Picture Butte attack.

League Governor Floyd Atkinson officially opened the 1957 baseball season in Vulcan by throwing the first pitch across the plate. Catcher was former professional ball player Frank Hess, while the batter was Harry Watson, coach and manager of the Picture Butte team.

On Thursday, the Yanks bounced back with a resounding 23-0 win over the league leading Champion Little Leaguers. Again Graham and Boutland were on the mound, but this time they hurled the shut-out to record the victory.

The Giants meanwhile lost a close game to Barons by a 6-3 score. Wayne Woodman doing the pitching chores for Vulcan.

## E. G. Hansell Receives Doctorate

A number of Vulcan citizens journeyed to Calgary last week to witness the graduation exercises at the Alberta Bible College when a number of degrees were awarded graduating students.

During the ceremonies Ernest G. Hansell, M.P., resident of Vulcan, who has been a trustee of the College since its inception was awarded an honorary doctorate. Francis Bodie, chairman of the executive board, awarded the diploma which reads: "To all whom these presents may come, Greeting: Be it known that Ernest George Hansell having attained to the excellency of scholarship and Christian service, and having brought high honor to the Church of Christ in Canada through a distinguished career in professional and public service, is hereby granted this diploma with the degree of Doctor of Divinity and is entitled to all the rights and privileges thereunto pertaining." Melvin L. Brakenridge, the principal of the College placed the hood upon Mr. Hansell.

R. E. Gonyea, vice-president of the college in the citation referred to Mr. Hansell's services to the college and the Churches of Christ in Canada. Reference was also made to the responsibilities which parliament had assigned to him, and the fact that he is now one of the senior members of the House of Commons.

The degree of Doctor of Divinity was also awarded R. J. Westaway of Calgary. Doctor P. L. Pratley, outstanding civil engineer and Canada's most distinguished bridge builder, was awarded the degree of Doctor of Sacred Literature. Doctor Pratley has served the Churches of Christ in Montreal for many years and is a trustee of the college. Miss Eileen Rutberg of Vulcan is now a third year student at the College.

## Vulcan Girl Wed At Church of Christ

**SHERSTABETOFF—RUTBERG**  
Vulcan Church of Christ was decorated with lilacs and mixed bouquets for an afternoon wedding Saturday, June 1, in which Marilyn Doreen Rutberg exchanged vows with Harry Sherstabetoff in a double-ring ceremony.

The bride is the second daughter of Mr. and Mrs. Hank Rutberg of Vulcan and the groom is the third son of Mr. and Mrs. Nick Sherstabetoff of Mossleigh. Jim Chapman officiated.

Escorted by her father, the bride chose a traditional gown of white net over taffeta which featured lily-point sleeves. The finger-tip veil of lace was sprinkled with iridescent sequins. She carried a white Bible on which rested a bouquet of red roses. She wore the groom's gift of a necklace of pearls.

Eileen Rutberg, sister of the bride, as maid of honor was attired in a blue chiffon semi-formal gown with ruffled bodices and flared skirt. Bridesmaids were Jean Schneider, Mrs. Don Martin and Patsy Robertson. They wore cock-tail length dresses of pink, mauve and yellow respectively. Each carried a bouquet of carnations and daffodils which matched the dresses.

The little flower girl, Linda Martin, wore a pink nylon dress and carried a bouquet of pink carnations. Kenneth Hutchinson was ring-bearer.

Don Martin and Alec Podmaroff attended as best men and the guests were ushered by Calvin Rutberg and Joe Sherstabetoff.

Mrs. Jean Gardner presided at the piano and during the signing of the register, Miss Aileen Case sang "Wedding Prayer."

For her daughter's wedding, Mrs. Rutberg chose a dusty-rose silk crepe dress with a lace jacket and a white carnation corsage. The mother of the groom was attired in a blue crepe dress with a corsage of pink carnations.

Following the ceremony a reception for some 100 guests was held in the basement of the church. The ladies of the Candle Light Circle assisted.

The toast to the bride was proposed by Jack Deans and the groom fittingly responded. Following the reception, Miss Aileen Case sang, "I'll Walk Beside You." Mrs. Lillie Schmidt was in charge of the guest book.

For travelling the bride changed to a powder blue dress and duster with white accessories and she wore a corsage of red roses.

Following a honeymoon in the U.S.A., the happy couple will make their home in Calgary.

Many out of town guests were present.

## Numbering Streets

Vulcan streets are now receiving a good coat of oil and this should alleviate the dust nuisance to a great extent.

And talking of streets, how about some action on the project of numbering the streets and avenues in town? With oil activity in the district bringing a large transient population, the need of numbering streets and avenues is growing more apparent every day.

Once the town has received permission to paint street and avenue numbers on power and telephone poles we would like to see some organization take up the project of supplying house numbers at a nominal cost. This has been done in other towns with very satisfactory results.

## Cherish This Privilege

Nowadays you don't have to be a political scientist to understand the value of the democratic ballot. You don't have to go far to find out what a scarce commodity the true, democratic ballot has become in the world, and what value we here in Canada should place on it. The heart of Democracy is the free vote, and only when you find voters going to the polls without fear, and casting their ballot without coercion can you have true Democracy.

There are alien and evil political systems which try to cloak themselves with the sacred name of Democracy. But such systems do not allow citizens to do what the citizen of a Democracy takes for granted—cast a secret ballot for a freely nominated candidate. In fact, many citizens of our Democracy take their franchise so much for granted that they seem to consider it a God-given right. Some of them think so little of this privilege that they will not even bother to go to the polls to vote. In the last federal general election in Canada—in 1953—there were more than two and a half million Canadians who, having the right to vote, failed to take advantage of this precious right which should be considered a direct responsibility.

Yet at this very moment there are, in this world of ours, people who are scheming, risking death and torture, with but one idea in mind—the restoration, or attainment of free elections, the secret ballot, the right of every man to vote for his freely chosen candidate.

It is on the sturdy foundation of free elections that the whole fabric of our democratic system is built—our free press, our freedom of speech and of religion, our right to work and to live as we will. It is a rare privilege, and a heritage handed down to us by our forebears. We should guard it well. Through the press, radio and films we have easy access to all the information we need in order to arrive at a sound judgement in casting our ballots. We have a duty which must be accepted if we are to keep our Democracy strong and vital. These rights of ours are well worth guarding.

VOTE as you like—But VOTE!

### WHAT ABOUT HIM?

You know how you treat your relatives, your friends, your fellows, but how do you treat your best friend—"The Son of God, who loved me, and gave Himself for me." —Galatians 2:20

What about Him? You doubtless can speak about religion, church or creed of some kind; but as it is a person who saves—for to "as many as received Him (Jesus) to them gave He power to become the sons of God, even to them that believe on His Name." —John 1:12 — the great question is: Have you received Him? Each person needs to answer the question: "What shall I do then with Jesus which is called Christ?" —Matthew 27:22 A.C.F.

## Be for Burton

I believe we farmers know what we want and are prepared to go after it.

The wheat farmer needs a market for more wheat—which means more storage. That is the reason I have boosted for steel bins and an increase in wheat exports.

This would also take pressure off the livestock producer. (In the effort to sell wheat through cattle, hogs and poultry we are in danger of flooding the market for meat.)

The welfare of the business man in town is closely tied to the well-being of the country. If agriculture prospers, so do the towns.

For 22 years Macleod constituency's voice in Ottawa has only been one of complaint and protest. Let's try working for what we want for a change. Tune your radio and T.V. for the following talks:

## Men Who Make Alberta

### THE POLICEMAN

Have you ever considered that the policeman you are grumbling about for having handed you a parking ticket may have, only a short time before, prevented a fatal accident involving your child... that the motorist, peeved when stopped for speeding or careless driving, may be only minutes away from killing or injuring you or one of your family? Have you ever stopped to think that as you sleep peacefully in your bed at night, an army of men in blue are on guard to prevent the lawless from having a field day of theft, assault or even murder, at your expense? Sometimes we are all apt to view the policeman as a disciplinarian put in our midst to annoy us personally, and forget that without the law and order that he maintains, our society would fast become chaotic.

With the increasing problems of modern society, through traffic hazards and the complexity of high speed living, the new police constable is required to meet ever increasing standards. His job requires understanding and tact, firmness of character and courage. Twenty-four hours a day he and his buddies stand on guard for our domestic security. He regulates the flow of traffic, prevents and reduces the number of fatal and crippling accidents, organizes and instructs school safety patrols, prevents crime, and, when crimes are committed, is faced with the task of apprehending the culprit often at the risk of endangering his own life.

In short, without the police constable, the orderly process of our every-day lives would be impossible.

### Spray Weeds Early

It has been found that weeds do most damage, in competition with growing crops, during the early stages of growth. For this reason farmers usually plan to start spraying about June 1st or very shortly afterwards. In control of broad leaved weeds the choice lies between two types of spray, 2,4-D for wheat and barley, and MCP for oats, flax and legume crops. At the same time, TCA may be used for narrow leaved weeds such as green foxtail in flax. Whatever product is used, it is important to follow the instructions carefully.
